I. Curriculum for Liberal Education (32 credits): All courses used for the Curriculum for Liberal Education must be on the approved Curriculum for Liberal Education list. Each of Area 2 and Area 3 requires 6 hours. Area 4 requires a single 6 hour laboratory sequence in Biology, Chemistry, Geosciences, Environmental Science or Physics. Mathematics majors must take Math 1225-1226 or its equivalent to satisfy the Area 5 requirement. The Area 6 requirement must be met with one 3-credit course, not three 1-credit courses.

Area 1: Writing and Discourse (6 credits)  
Area 2: Ideas, Cultural Traditions and Values (6 credits)  
Area 3: Society and Human Behavior (6 credits)  
Area 4: Scientific Reasoning and Discovery (6 credits)  
Area 5: Quantitative and Symbolic Reasoning (met by major)  
Area 6: Creativity and Aesthetic Experience (3 credits)  
Area 7: Critical Issues in a Global Context (3 credits)  
Foreign languages: The equivalent of three years of one foreign language in secondary school.

NOTE: Students who completed two years of a single foreign language in high school are strongly urged to complete the second semester (1106) of that foreign language very early in their program of study. Students who will be taking first and second semesters (1105-1106) of a foreign language are encouraged to schedule it in their freshman or sophomore years.

NOTE: Students who completed fewer than two years of a single foreign language in high school must complete six semester hours of one foreign language at the college level and these six credits do not count toward the 120 hours required to graduate in the College of Science.

II. Required Mathematics Courses (50 credits)

A. Calculus
   MATH 1225 Calculus of a Single Variable I 4 ( )  
   MATH 1226 Calculus of a Single Variable II 4 ( )  
   MATH 2204 Intro to Multivariable Calculus 3 ( )
B. Linear Algebra, ODE's
   MATH 2114 Intro to Linear Algebra 3 ( )  
   MATH 2214 Intro to Differential Equations 3 ( )

C. Proofs, Advanced Calculus
   MATH 3034 Intro. to Proofs 3 ( )
   MATH 3214 Calc. of Several Variables 3 ( )
   MATH 3224 Advanced Calculus 3 ( )
D. Computational Mathematics
   MATH 4414 Issues in Scientific Computing 3 ( )
   MATH 4445 Intro. to Numerical Analysis 3 ( )
   MATH 4446 Intro. to Numerical Analysis 3 ( )

E. Fourier Series and PDE's
   MATH 4425 Fourier Series and PDEs 3 ( )
   MATH 4426 Fourier Series and PDEs 3 ( )
F. Mathematics Electives
   ____________ 3 ( )

---

1 In order to enroll in 3034, a mathematics student must:
   CURRENT: either (a) obtain a C or better in the final attempt of each of 1205, 1206, 1114, and (2214 or 2224) or (b) have at least a 2.2 GPA in these five courses with at most one grade of C- and no D's in the last attempt in each.
   EXPECTED: obtain a C or better in the final attempt of MATH 2114.

2 The six hours of math electives must be chosen from Mathematics courses numbered between 4024 and 4454, with the following exceptions: (a) MATH 3124 can be used to satisfy three of the six hours required. (b) No more than 3 hours from MATH 4044, 4334, 4344 can be used to satisfy the six hour requirement.
III. Applied Areas (15 credits)

A. Computer Programming: One of the following:

- MATH 3054 Programming for Mathematical Problem Solving
- CS 1044 Introduction to Programming in C
- CS 1054 Introduction to Programming in Java
- CS 1114 Introduction to Software Design

   ____________  3 ( )

B. Application Area (12 credits) (Must be approved by ACM Faculty Committee)

   ____________  3 ( )
   ____________  3 ( )

IV. Free Electives (sufficient to achieve the 120 credit graduation requirement)

   __________ ( )
   __________ ( )
   __________ ( )
   __________ ( )
   __________ ( )
   __________ ( )
   __________ ( )

V. Outcomes Assessment: Each student is required to participate in the department's Outcomes Assessment procedures as determined by each year's Undergraduate Program Committee and approved by the Head.

VI. Satisfactory progress toward the B.S. in Mathematics: Upon having attempted 36 semester credits, the student must have completed 12 credits of the Curriculum for Liberal Education. Upon having attempted 72 credits (including transfer, advanced placement, advanced standing, credit by examination and course withdrawal), the student must have completed 24 credits of the Curriculum for Liberal Education. In addition, satisfactory progress toward the B.S. in mathematics requires that:

1. Within the previous two semesters, the student must pass at least one mathematics course that is used in the in-major GPA calculation.
2. Upon having attempted 45 semester credits, students must have an in-major grade-point average of 2.2 or above.
3. Upon having attempted 72 semester credits (including transfer, advanced placement, advanced standing, credit by examination, course withdrawal), students must have completed the following courses with grades of C- or better: Math 1225, 1226, 2204, 2114, 2214, and 3034 and not have taken any of these courses more than twice, including attempts ending in course withdrawal.
4. ACM option students must submit an Application Area Course Plan upon having attempted 45 hours (including transfer, advanced placement and pass/fail).

VII. Minimum hours required for graduation: 120 credits

VIII. Minimum GPA required for graduation: Students are required to have a 2.00 GPA and a 2.00 in-major GPA for graduation. All mathematics courses count toward the in-major GPA for this option except Math 1014, 1015, 1016, 1025, 1026, 2015, 2016, 2024 and any undergraduate mathematics course with second digit a 5 or a 6, i.e., MATH x5xx or MATH x6xx.

Note: Please consult the course catalogue for prerequisite requirements.
