Math 1014
Precalculus with Transcendental Functions
Fall 2015

CRN 84418: 9:05-9:55 am MTuWThF in Randolph 318

Instructor: Susan Anderson
Phone: 231-8041 (o); 951-2013 (h)
E-mail: anderson@math.vt.edu
Office: 431 McBryde
Home Page: http://www.math.vt.edu/people/anderson/

Office Hours:
• Monday: 10 am – 1 pm
• Wednesday: 10 am – 1 pm
• Thursday: 10 am – noon
• Friday: 10 am – 1 pm
• Other hours by appointment

Final Exam: Friday, December 11, 7:45 am

Course Content: Please see the syllabus.

Grading Criteria and Evaluation Procedure: A total of 700 points may be earned during the semester. Five 100-point tests will be given and the lowest test grade will be dropped. A comprehensive final exam counting 170 points will be given. Computer labs will count 100 points. Attendance (including participation and homework) will count 30 points.

Final grades will be determined by adding the total number of points accumulated and dividing that number by 700. A 90% will guarantee an A-, an 80% will guarantee a B-, a 70% will guarantee a C-, and a 60% will guarantee a D-.

Points for Attendance/Participation/Homework:
0-2 absences with homework satisfactorily completed daily -- 30 points
3-5 absences with homework satisfactorily completed daily -- 20 points
6-10 absences with homework satisfactorily completed daily -- 10 points
11 or more absences or unsatisfactory homework grades -- 0 points

Absences may be excused only with appropriate documentation from a doctor, a coach, or the sponsor of a university activity. Three “tardys” equal one absence.

You are responsible for all announcements made in class.
**Honor System:** The Virginia Tech Honor System will be strictly enforced. Tests (including the final exam) must be solely the individual’s work. Homework and labs, however, may be completed in collaboration with others.

**Make-up Policy:** Make-up tests will not be given. If, for an unavoidable reason, you miss a test and have an excused absence, the final exam grade will replace the grade on the missed test.

**Use of Calculators:** Graphing calculators are permitted in most instances.

**Special Needs Students:** If you are a student with special needs or circumstances, if you have emergency medical information to share with me, or if you need special arrangements in case the building must be evacuated, please meet with me during office hours or schedule an appointment for another time.

**Help:** In addition to help during office hours listed previously, free tutoring is available in the “Club Room” at the Math Emporium from 4:30 pm to 9:30 pm on Sundays through Thursdays for 1000-level and 2000-level math courses.

**Caution:** If you are not on the class roll that comes out after the last “add” date, immediately check your schedule and start attending the proper section. By simply attending a section, you will not be placed on its roll.
