COURSE CONTRACT
MATH 1206 – Integral Calculus – Fall 2012
CRN 94194: 8:00 am – 8:50 am MWF in Randolph Hall 129

Instructor: Andy Wills
Office: 466C McBryde Hall
E-mail: awillsa@vt.edu
Office Hours:
- M 12:20 – 1:20 pm, W,Th 11:00 am-12:00
- Or by appointment

Text:
University Calculus (Custom Edition for Virginia Tech) by Hass, Weir & Thomas

Prerequisites:
Math 1205 or equivalent

Course Description:
Math 1206C is a computer-tested three-credit second semester integral calculus course. Topics of study include integration, applications of integrals. More details are provided here: http://www.math.vt.edu/courses/math1206

Grading:
Your final grade in the course will be computed as follows:
- Homework/Quizzes: 9%
- Attendance: 3%
- Six Computer Tests: 72% (12% each)
- Final Exam: 16%
A 90% will guarantee an A-, 80% a B-, 70% a C-, 60% a D-.

Homework/Quizzes:
Homework/quizzes will be assigned and collected regularly. Late homework policy: You may, during the course of the semester, submit at most two late assignments for full credit provided they are delivered to my office no later than 11:00 am on the day after they were collected.

Attendance:
Attendance will be taken at every class meeting and will constitute 3% of your final grade. You are responsible for any announcements and any material covered in class.

Tests:
Six computer-based test will be given at the Math emporium roughly every two weeks. Each test counts 12% of the grade and can be taken for credit a maximum of three times and the highest score is recorded. However, the electronic tickets expire gradually during the testing period: one will expire on Wednesday, another on Thursday and the last one on Friday of the test week. Note that the deadlines for the tickets are different from the proctoring hours at the Emporium, especially remember that on Friday, the test must be
started by 2:00 PM and you will have only one attempt left. Practice tests can be taken from any computer unlimited number of times. The dates for the tests are:

Test 1: Sep. 12 – 21
Test 2: Sep. 26 – Oct. 5
Test 3: Oct. 10 - 19
Test 4: Oct. 24 – Nov. 2
Test 5: Nov. 7 - 16
Test 6: Nov. 28 - Dec. 7

Test Make-up Policy: During the last 3 full weeks of class (November 12 - December 7) students will have the opportunity to take a maximum of 2 replacement tests. The grade on each of these tests would replace any grade already achieved by the student even if the prior grade was higher than the replacement grade. All testing for Math 1206C will end on December 7 at 2pm.

Basic Skills Test:
Basic Skills Test is a pass/fail test on material from the previous course and must be passed to receive the grade for the course. It will be available Monday, August 27, can be taken twice a day during the testing hours, and must be completed by Friday, September 7.

Final Exam:
There will be a multiple choice common time final exam scheduled to take place on Dec. 18, 1:05 - 3:05 PM. The final exam is a required class meeting that will not be rescheduled for discretionary reasons, including conflicts with work schedules and with classes and exams at other colleges.

Honor System:
All tests and quizzes will be completed individually, unless otherwise announced. For homework assignments, you may discuss techniques and solutions with others, but each student must do an independent, individual write-up to turn in. Direct copying of solutions or parts of solutions from any source is a violation of the Honor Code, as is sharing your solutions with others. It is your responsibility to seek clarification if there is any question about how the Honor Code applies to a given assignment.

Accommodations and Special Arrangements:
If you need adaptations or accommodations because of a documented disability, if you have emergency medical information to share with me, or if you need special arrangements in case the building must be evacuated, please make an appointment to meet with me as soon as possible.
