Homework Requirements

1) Use regular sized paper (8.5 X 11)
2) No rough edges on papers torn out of spiral notebooks.
3) Staple multiple papers and put name on all sheets. If a page is lost then you have a zero for that work.
4) No Ink
5) Work must be neat and easy to follow
6) All work must be shown, credit is usually not given for answers alone.
7) Do not do work on the homework sheet itself unless room has been left for work.

If work is too messy and hard to read it will not be graded. Points will now be deducted if the above requirements are not followed.

The reason for these requirements is to help graders be as efficient as possible so we can get your work back to you as quickly as possible. They are grading large classes as well as doing their own work and they do not have time to deal with papers that are hard to read or have work that is hard to follow.

Thank you to all of those who have been following the requirements. We appreciate it.
